

## COVID 19 Vaccine Update 02/16/2021

Bremo Pharmacy is a vaccinator for the Richmond/Henrico Health Department. The health department assigns who Bremo Pharmacy will be vaccinating. During the month of February, the vast majority of vaccine allocated to our site is being used to give the second dose to all of the healthcare providers and group homes we vaccinated in January. Any additional vaccine we receive is being used to vaccinate residents of group homes and other communal living programs. If you are a group home who gets prescriptions at Bremo, please go to [Bremorx.com](http://Bremorx.com) and see our blog article "[COVID-19 vaccine for group homes.](#)" to learn how to sign up to get the vaccine.

We do not know when we will move to phase 1b, which includes seniors over 65. In the meantime, we are only able to vaccinate a small number of patients who are over the age of 65 if there is extra vaccine leftover from a phase 1a clinic. If we do have extra doses, we are contacting healthcare providers and people over the age of 65 who are on our "[extra dose list.](#)" This is a list of individuals who are available to come on short notice if there is extra vaccine. We do not have a waiting list for scheduling appointments at this time. If you are in phase 1b, we recommend that you fill out an interest form with your local health department. (See Chart below).

Local Health Department	COVID 19 Vaccine Inquiry Form
Chickahominy Health District (Charles City, Goochland, Hanover, New Kent Counties)	<a href="https://vax.preregister.virginia.gov/#/">https://vax.preregister.virginia.gov/#/</a>
Richmond Henrico Health District	<a href="https://www.vdh.virginia.gov/richmond-city/2021/01/08/10436/">https://www.vdh.virginia.gov/richmond-city/2021/01/08/10436/</a>
Chesterfield Health District (Chesterfield, Powhatan, Colonial Heights)	<a href="https://vax.preregister.virginia.gov/#/">https://vax.preregister.virginia.gov/#/</a>

At Bremo Pharmacy, one of our [core values](#) is to promote health and wellness. This is why we jumped at the chance to be able to provide the COVID-19 vaccine to our community. We very much want to serve our full community by vaccinating everyone who wants and needs the vaccine. We understand that many have health conditions that put them at high risk, and many are anxious to get the shot as soon as possible. As supply improves, we plan to do just that. Our staff is working very hard to get as many people vaccinated as possible, while also following the guidelines that the Health Department has set forth. Thank you for your patience.
