

# Do You Want to become a Pharmacy Technician?

## **What Does a Pharmacy Technician Do?**

Pharmacy technicians are pharmacists' best friend!

A lot of people are unaware of the importance and versatility of a pharmacy technician. Each pharmacy setting has a different job description for pharmacy technicians. If you choose to work in a retail/community setting, you may be tasked with inputting and filling prescriptions, compounding medications, maintaining inventory records, or communicating with patients and doctors. If you choose to work in a hospital, you may be tasked with filling syringes or preparing IV drip solutions. If you choose to work in a mail-order pharmacy, you may be tasked with processing insurance claims and overseeing the proper functioning of equipment. The opportunities as a pharmacy technician are endless and exciting!
